

Inflatable PFD Clinic

Saturday June 15, 2019 9am - 12pm

Come join Phil Pollard, Nick Fugate, and Greg Gills of Crowley's Yacht Yard as they host a PFD Clinic on Saturday June 15th, from 9am to 12pm, at the Chicago Corinthian Yacht Club.

Phil will discuss the fundamental differences between the types of arming systems, ISO and USCG approval ratings, when proper maintenance should be performed, how best to store PFD's when not in use, when a life jacket should be replaced, and more!

We invite all attendees to please bring along their life jacket(s) to learn valuable hands-on skills on how to properly inspect, re-arm, and re-pack their life jacket(s).

There is no cost to attend the event. The only cost to you would be a re-arm kit should you decide you want to inflate your PFD before repacking it.

The clinic size is limited to 50 persons, and will be offered via RSVP only. Please RSVP to Chris Garbacz via email (please include PFD Clinic in subject line) at: corinthianuniversity@corinthian.org
